Smith, Shad	SC Engineering
Telkamp, Bill	Altamonte Spgs P.D.
Wall, Barry	FDOT
Seltgo, Steve	Oviedo P.D.

Robin Butler called the meeting to order at 8:30 a. m. The minutes from the August 26, 2008 meeting were approved as submitted.

OLD BUSINESS:

The Labor Day Wolfpack Operation and the School Zone Safety Awareness Operation updates were tabled, as the results were not complete.

Colleen Jarrell reported on the findings of the Roadway Safety Assessment review reference the traffic congestion at Crystal Lake Elementary School off of Rinehart Rd in Lake Mary. It was determined that the school is now properly utilizing the entrance ramp, therefore no additional modifications are recommended.

Both of the Safe Walking Routes to School grants previously presented to the CTST for support were awarded in Seminole County. Grant submissions were by Brett Blackadar, SC Engineering for Wilson Road serving Wilson Elementary and by the City of Oviedo for various roads serving Jackson Heights Middle School.

Combi USA, Inc. donated 5 child restraints to the Seminole County Child Passenger Safety program.

C.R.O.P. classes are now being taught through the Florida Safety Council offices in Orlando on Primrose. If participation in Seminole County picks up, the class will be offered at the FSC Longwood offices on SR 434. New brochures with program information were distributed.

PROBLEMS AND SOLUTIONS:

There were 4 open items and all 4 were closed (see attached Problem & Solution update).

FATALITIES TO DATE:

4 traffic fatalities presented, and after review it was determined that each fatality was the direct result of driver/operator error.
