Seminole County is committed to reducing poverty for its residents. As a recipient of Community Services Block Grant (CSBG) funds through Florida Commerce, Seminole County is able to provide essential services to low-income and vulnerable populations to increase economic self-sufficiency and promote upward mobility. The county must first identify the underlying causes and conditions of poverty and better understand the unmet needs of residents living below the poverty level.

The county is currently conducting a Community Needs Assessment (CNA) which will provide a housing, homeless, and economic profile. The CNA will help the county determine priority community needs and inform CSBG funding recommendations.

Provide feedback by completing a stakeholder survey, taking a quick poll, leaving a comment on the draft Community Needs Assessment, or asking a question privately.
