

COURTESY POOL FILL CREDIT REQUEST

You may request a credit on your water bill if you filled a pool. The pool fill credit is available every 5 years. Pool fill credits are for sewer only and will not exceed \$35. Your bill must reflect at least a \$35 increase in your sewer charges to be eligible for the pool fill credit. Your account has to have sewer service. If you are a water only account or you used your irrigation meter, the sewer credit does not apply. Submittal of this request does not prevent your account from collection activity, including interruption of services. If your account is a commercial account and your sewer is not capped at 15,000 gallons you will be eligible for a higher credit.
