

COUNTRY CLUB HEIGHTS UTILITIES IMPROVEMENT PROJECT

Community Update: June 12, 2024

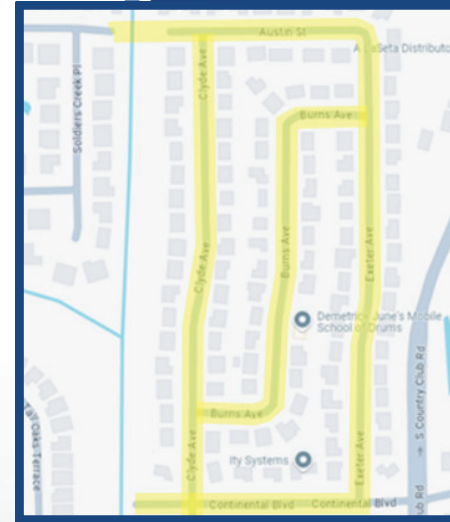

Dear Property Owners and Residents of Country Club Heights,

We appreciate your continued patience as we work through the Country Club Heights Utilities Improvement Project.

We want to inform you that the previous contractor has permanently exited the community. Seminole County is now taking all necessary steps to ensure the project is completed to the highest standards. We will keep you informed of new developments, including the selection of a new contractor.

In the meantime, a County team will be deployed to clean up the neighborhood. You can expect a new street sweeper to clear construction-related debris and dust in the coming days, along with efforts to manage erosion throughout the area.

Please do not hesitate to reach out with any questions to Community Project Liaison, Leann Wishah, via email at CCH-Utilities-Project@seminolecountyfl.gov or by phone at (352) 432-8179.
